Re: The appraisal of 2.24 acres (97,723 SF) of land and existing improvements located at 3000 Harden Street, Columbia, Richland County, South Carolina. Property now or formerly of South Carolina Electric & Gas Company n/k/a Dominion Energy, identified as TMS #R11502-02-01.
Our File No. 20-051

Dear Mr. Wright:

At your request, we have inspected and appraised the property located at 3000 Harden Street, Columbia, Richland County, South Carolina. The property is further identified in the Richland County Tax Map System as TMS #R11502-02-01. The property contains 2.24 acres (97,723 SF) of land and is improved with a 1-story office building containing 5,546 square feet, along with the necessary site improvements to support the operation of the building.

The intended use of the appraisal is to aid the client in internal decisions concerning the possible sale of the property as of August 12, 2020. The client is Dominion Energy.

The results of our inspection and analyses are combined in this letter along with the attached appraisal report which are intended to comply with the minimum requirements, as set forth in Standards Rule 2-2(a) of the *Uniform Standards of Professional Practice* (USPAP), 2020-2021 Edition, published by The Appraisal Foundation.

The value estimates reported in this letter are based upon the facts and conclusions contained in the appraisal report that is attached and should be considered an integral part of this transmittal and incorporated herein by reference. Special attention is brought to the assumptions and limiting conditions contained in the report. No other special assumptions have been made in arriving at the market value estimates. This appraisal assignment was not made, nor was the appraisal rendered on the basis of requested minimum valuations or specific valuations.

The interest appraised is that of the fee simple interest. The property has been appraised as if free and clear from all liens and encroachments which may render the title to the subject property unmarketable.

This letter and the attached appraisal report have been prepared in accordance with the Code of Professional Ethics and Uniform Standards of Professional Appraisal Practice, as approved and adopted by the Appraisal Standards Board of the Appraisal Foundation and the Appraisal Institute. The use of this letter and the attached report are subject to the requirements of the Appraisal Institute relating to their review by its duly authorized representatives.

Mr. Robert Wright
Appraisal Department
Dominion Energy
September 1, 2020
Page 2

After applying the methods and techniques recommended by the Appraisal Institute, and after analyzing the data presented in the attached appraisal report, it is our opinion that the market value "as is" of the fee simple interest of the subject property, as of August 12, 2020, is:

The final value estimates are based upon the various considerations outlined in the definition of market value. The value estimates outlined within this report are based upon an estimated marketing time and exposure time of 12 months. It should be noted that exposure time occurs prior to the value estimate and the marketing time occurs after the value estimate.

Our valuation of the subject property considered the best information that was available at the time of our analysis and users of this appraisal should consider the appraisal may be affected by the scope of work. Users are reminded that the appraisal conclusions in this report are effective as of the stated date(s) of valuation.

The global outbreak of a "novel coronavirus" known as COVID-19 was officially declared a pandemic by the World Health Organization (WHO) on March 11, 2020. The reader is cautioned, and reminded that the conclusions presented in this appraisal report apply only as of the effective date(s) indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event, subsequent to the effective date of the appraisal.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "GE Knight, Jr." with a stylized flourish.

Certification

We, the undersigned appraisers, do hereby certify to the best of our knowledge and belief that:

The statements of fact contained in this report are true and correct.

The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and is our personal, impartial, and unbiased professional analyses, opinions, and conclusions.

We have no present or prospective interest in the property that is the subject of this report and we have no personal interest with respect to the parties involved.

We have not provided any services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding the acceptance of this assignment.

We have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

Our engagement in this assignment was not contingent upon developing or reporting predetermined results.

Our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined result, value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

Our analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.

The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

We have made a personal inspection of the property that is the subject of this report unless otherwise noted below.

No one provided significant real property appraisal assistance to the persons signing this report.

The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.

As of the date of this report, George E. Knight, Jr., MAI, and Joseph B. Woods, SRA, have completed the continuing education program for Designated Members of the Appraisal Institute.

Summary of Major Conclusions

Identification of Property:	3000 Harden Street: A 1-story office building containing 5,546 square feet, along with the necessary site improvements to support the operation of the building.
Tax Map Identification:	TMS #R11502-02-01
Site Description:	The site contains 2.24 acres or 97,723 square feet, is irregular in shape, with an 17.62 to 1 land to building ratio and is located along the northeast side of Harden Street, Columbia, Richland County, South Carolina.
Improvements:	The existing improvements consist of a 1-story office building containing 5,546 square feet, along with the necessary site improvements to support the operation of the building. The overall physical condition of the building is good. A copy of the Plat is contained in the Subject Photographs and Exhibits section of the report.
Age:	The improvements were constructed in 2005. The overall physical condition is good with the subject's actual age being approximately 15 years with an effective age estimated at approximately 5 years. The total economic life of the improvements is approximately 60 years with the remaining economic/useful life being approximately 55 years.
Property Rights Appraised:	Fee Simple
Date of Value Opinion:	August 12, 2020
Highest and Best Use As Vacant:	Commercial Development (Office), as allowed by zoning and as the market dictates
Highest and Best Use As Improved:	Commercial Office Building With Surplus Land
Zoning (City of Columbia):	C-1, Office and Institutional
Assessable Transfer of Interest:	The current tax law for the assessment of real estate has a provision that permits the tax assessor to adjust the market value for tax purposes to the assessable transfer of interest (contract sales price). For counties with assessed values considerably less than actual market values, this will result in higher real estate taxes. The subject property has a current market value of \$683,000 (aggregate). If and when the subject property is sold, the adjustment point for tax purposes would be that of the actual sales price and could result in a change of the property tax liability. This is further discussed in detail within the Tax Assessment Data section of this report.

Summary of Major Conclusions

Marketing / Exposure Time: 12 months

Market Value Opinions:

[REDACTED]

Hypothetical Conditions:

There are no hypothetical conditions for this appraisal.

Extraordinary Assumptions:

There are no extraordinary assumptions for this appraisal..

Assignment Elements

Client and Intended User

The client is Dominion Energy. The intended user is Dominion Energy and/or affiliates. There are no other intended users. Possession of this report does not constitute an intended user.

Intended Use

The intended use of the appraisal is to aid the client in internal decisions concerning the possible sale of the property, as of August 12, 2020.

Appraisal Reporting

Based upon the client's intended use of the appraisal, we have prepared an appraisal report of the property. This appraisal report is intended to comply with the minimum requirements of Standards Rule 2-2(a) of the Uniform Standards of Professional Appraisal Practice for an appraisal report.

Real Property Interest Appraised

The interest appraised is that of fee simple ownership, subject to the existing easements and encroachments of record. The property has been appraised as if it is free and clear of all liens and encumbrances which may render the title to the subject property unmarketable.

Type and Definition of Value

Market value is defined in *The Dictionary of Real Estate Appraisal*, Sixth Edition, published by the Appraisal Institute, as "The most probable price that a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and passing of title from seller to buyer under conditions whereby: 1) buyer and seller are typically motivated; 2) both parties are well informed or well advised, and each acting in what they consider their best interest; 3) a reasonable time is allowed for exposure in the open market; 4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and 5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale." (12 C.F.R. Part 34.42(f))

Effective Date

The effective date of the appraisal is August 12, 2020; the date of the report is September 1, 2020.

Subject of the Assignment and its Relevant Characteristics

The subject of the assignment is to provide an estimate of the market value of the fee simple interest of the subject property for the possible sale, as of August 12, 2020. The subject site, located at 3000 Harden Street, Columbia, Richland County, South Carolina, is comprised of one (1) parcel, containing approximately 2.24 acres (97,723 SF) of land, irregular in shape. The improvements consist of a 1-story office building containing 5,546 square feet of office space, along with the necessary site improvements to support the operation of the building. The improvements were constructed in 2005. The overall physical condition is good with the subject's actual age being approximately 15 years with an

PUBLIC VERSION**20-051 3000 Harden Street****Assignment Elements**

effective age estimated at approximately 5 years. The total economic life of the improvements is approximately 60 years with the remaining economic/useful life being approximately 55 years. The overall physical condition is good.

Ownership History

The property was conveyed to South Carolina Electric & Gas Company*, by Deed of Pulmonary Partnership, dated June 23, 2003, and recorded on June 24, 2003, in the Office of the ROD for Richland County in Deed Book 811 at Page 419, for the consideration of \$775,000.00.

*South Carolina Electric & Gas Company n/k/a Dominion Energy

Listings and Contracts of Sale

Research of the applicable public records, private data services and an interview of the current owner, revealed that the subject property is not currently under current agreement or option and is not offered for sale on the open market. Additionally, according to these sources, the subject property has not been transferred during the past three (3) years.

Marketing Time / Exposure Time

The final value estimate is based upon the various considerations outlined in the definition of market value. The value estimate outlined within this report is based upon an estimated marketing time and exposure time of 12 months. It should be noted that exposure time occurs prior to the value estimate and the marketing time occurs after the value estimate.

Scope of Work

As a part of this appraisal, we made a number of independent investigations and analyses. We relied upon data retained in our office files which we update regularly. The investigations undertaken and the major data sources used are outlined as follows. We reviewed the local economic and demographic trends for Richland County on the *Site to Do Business* website. We studied the available market data and economic trends of the subject area and neighborhood. We inspected the subject neighborhood and the subject property. We examined the records of Richland County concerning the zoning ordinance and the available public utilities in the area. We examined the records of Richland County Tax Assessor's Office and reviewed the method of taxation and the specific tax data including assessment percentages and millage rates applicable to the subject property. We examined the public records for deeds and plats relating to the subject property.

We obtained improved sales and lease information for comparable office buildings in the Columbia MSA. Sources utilized to verify the sales analyzed include a portion or all of the following: public records, aerial photographs, brokers, owners, third parties, real estate appraisal files and inspections. We have the competency to complete the assignment based upon our experience and training including the completion of previous assignments involving similar properties.

The intended use of this appraisal is to provide an estimate of the market value of the fee simple interest of the subject property for the possible sale, as described in this report. Conventional appraisal theory dictates that market value may be determined by the use of one or more of the three accepted approaches to value. These approaches to value are the cost approach, the sales comparison approach and the income capitalization approach.

The cost approach is a set of procedures by which an indication of the value of the subject is obtained by estimating the depreciated value of the subject improvements, to which is added the value of the subject site, valued at its highest and best use.

The sales comparison approach is a set of procedures by which an indication of the value of the subject property is estimated by comparing it to similar properties which have sold recently. Appropriate units of comparison are used and adjustments, based upon various elements of comparison, are made to the sales.

The income capitalization approach is a set of procedures by which an indication of the value of the subject is estimated based upon converting anticipated income into value. The conversion of income into value is accomplished by capitalizing (discounting) a single year's income or several year's income into value.

The subject property is currently improved with a 1-story office building containing a total of 5,546 square feet, along with the necessary site improvements to support the operation of the building. The subject site contains surplus land that will be further discussed within the **Highest and Best Use** section of this report. In forming an opinion of the "as is" value of the subject property as improved, the sales comparison approach to value and the income approach to value will be used. The information upon which these approaches to value are based is from the market and is the best information available for the application of the approaches to value and will lead to a credible value conclusion. The cost approach to value has been omitted from this report as this is not a valuation method relied upon by investors. This exclusion will not lead to a misleading report.

Assignment Conditions

Assumptions and Limiting Conditions

The legal description, or other property identification furnished by others, is assumed to be correct, and no responsibility is assumed for matters legal in nature. No opinion is rendered as to title, which is assumed to be marketable. Any existing liens or encumbrances have been disregarded, and the property is appraised as if free and clear, unless otherwise noted in the body of the report.

No current survey of the property was made, and the improvements are assumed to be within the lot lines, in accordance with local building codes. Drawings, sketches, or maps are included in this report for the sole purpose of assisting the reader in visualizing the property. Unless otherwise indicated, they are not engineering drawings.

There is a full compliance with all applicable federal, state, and local environmental regulations and laws unless noncompliance is stated, defined and considered in this appraisal report.

All applicable zoning and use regulations and restrictions have been complied with, unless a non-conformity has been stated, defined and considered in the appraisal report.

All required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.

In cases of proposed projects, all permits and governmental regulations are assumed to be secured and/or complied with.

All major improvements on the property being appraised appear to be structurally sound, unless otherwise noted within the body of the appraisal. However, the appraiser is not an engineer and has not been instructed to secure a qualified engineer's certification of the structural soundness of the said improvements or functional utility of major appliances or mechanical failures which would not be reasonably obvious in the scope of an appraiser's normal inspection of the specified improvements, or to a prudent purchaser.

Certain information used in this report has been furnished by others. The sources and the information are considered to be reliable, but cannot be guaranteed.

The subject property is assumed to be under responsible ownership and reasonable and competent management.

No responsibility is assumed for service or operating inspections of equipment in the building covered by the appraisal report.

No responsibility is assumed for an inspection of weather tightness of the exterior or interior surfaces of this building.

No tests of material or equipment were made.

Acceptance of, and/or use of, this appraisal report by client or any third party constitutes acceptance of the above conditions. Appraiser liability extends only to stated client, not subsequent parties or users of any type, and the total liability of appraiser and firm is limited to the amount of the fee received by appraiser. This appraisal report is an economic study for value; it is not an engineering, structural, mechanical, feasibility or architectural study.

The appraiser is not required to give testimony or to appear in court with reference to this property by reason of this report unless prior arrangements have been made.

Distribution of the value reported between land and buildings applies only under the existing program of utilization, and separate valuations for land and improvements must not be used in conjunction with any report and are invalid if so used.

Possession of this report, or a copy thereof, does not carry with it the right of publication, either in whole or in part, nor may it be used for any purpose by any except the party for whom it was prepared without the consent of the appraiser, and then only with proper qualifications.

Neither all nor any part of the contents of this report shall be conveyed to the public through advertising, public relations, news media, sales, or other media without written consent and approval of the author, particularly as to value conclusions, the identity of the appraiser or firm with which he is connected, or by reference to any professional societies or designations conferred upon the appraiser.

Users of this appraisal report are directed to obtain the services of a professional engineer to determine the presence and/or absence of hazardous materials including, but not limited to: asbestos and/or radon gas and/or urea formaldehyde foam insulation, as well as the structural integrity of the building and the present condition of its mechanical systems, since the appraiser(s) has made no such inspection expressly or implied and accept no responsibility. The presence of such substances or other potentially hazardous materials may affect the value of the property. The value estimate is predicated on the assumption that there are no such materials on or in the property that would cause a loss in value.

This appraisal is specifically contingent upon, and the appraiser's understanding that, there has been, or will be, a removal of any underground storage tanks which exist or which may have existed on the subject site; also, that there has been no contamination of soils. If contamination has occurred, the contaminated soils and the source of contamination will be removed and the contamination remedied on the subject site in accordance with all federal and state regulations.

The Americans with Disabilities Act (ADA) became effective January 26, 1992. Noncompliance with this Act may have a negative effect upon the property. Since a compliance survey is outside the realm of expertise of a real estate appraiser, a possible noncompliance with the requirement of ADA was not considered in this report. An expert in this field should be consulted.

Extraordinary Assumptions -- An assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions. (USPAP, 2020-2021 ed.)

There are no extraordinary assumptions for this appraisal.

Hypothetical Conditions -- A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. (USPAP, 2020-2021 ed.)

There are no hypothetical conditions for this appraisal.

Jurisdictional Exceptions -- An assignment condition established by applicable law or regulation, which precludes an appraiser from complying with a part of USPAP. (USPAP, 2020-2021 ed.)

No jurisdictional exceptions have been taken in the appraisal of the subject.

Other Conditions that Affect the Scope of Work

There are no specific conditions that affect the scope of work that have not been outlined within the body of this report.

Signature(s) / Electronic Signature(s)

The signature(s) contained within this report are personalized evidence indicating authentication of the work performed by the appraiser(s) and the acceptance of the responsibility for content, analyses, and the conclusions in the report. The signature(s) were applied by the original appraiser and represent the facts, opinions and conclusions found in the report. The appraiser applied signature(s) electronically using a password encrypted method. Hence, the signature(s) have more safeguards and carry the same validity as the individual's hand applied signature.

Glossary of Appraisal Terms

Appraisal¹: (Noun) the act or process of developing an opinion of value; an opinion of value. (Adjective) of or pertaining to appraising and related functions such as appraisal practice or appraisal services.)

Appraiser's Peers: Other appraisers who have expertise and competency in a similar type assignment.

Assignment: A valuation service that is provided by an appraiser as a consequence of an agreement with a client.

Client²: The party or parties (i.e., individual, group, or entity) who engage an appraiser by employment or contract in a specific assignment, whether directly or through an agent.

Cost Approach: A set of procedures through which a value indication is derived for the fee simple interest in a property by estimating the current cost to construct a reproduction of (or replacement for) the existing structure; including an entrepreneurial incentive, deducting depreciation from the total cost, and adding the estimated land value. Adjustments may then be made to the indicated value of the fee simple interest in the subject property to reflect the value of the property interest being appraised.

Credible: Worthy of belief.

Discounted Cash Flow (DCF) Analysis: The procedure in which a discount rate is applied to a set of projected income streams and a reversion. The analyst specifies the quantity, variability, timing, and duration of the income streams as well as the quantity and timing of the reversion, and discounts each to its present value at a specified yield rate.

Easement: The right to use another's land for a stated purpose.

Exposure Time³: An opinion, based on supporting market data, of the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.

Fee Simple Estate: Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

Highest and Best Use: The reasonably probable use property that results in the highest value. The four criteria the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity.

Income Approach (income capitalization approach): Specific appraisal techniques applied to develop a value indication for a property based on its earning capability and calculated by the capitalization of property income.

Intended Use: The use(s) of an appraiser's reported appraisal or appraisal review assignment results, as identified by the appraiser based on communication with the client at the time of the assignment.

¹ Uniform Standards of Professional Appraisal Practice, 2020-2021 Edition

² Uniform Standards of Professional Appraisal Practice, 2020-2021 Edition

³ Uniform Standards of Professional Appraisal Practice, 2020-2021 Edition

Intended User: The client and any other party as identified, by name or type, as users of the appraisal or appraisal review report by the appraiser, based on communication with the client at the time of the assignment.

Leased Fee (leased fee interest): The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary rights when the lease expires.

Leasehold Interest: The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease.

Report⁴: Any communication, written or oral, of an appraisal or appraisal review that is transmitted to the client or a party authorized by the client upon completion of an assignment.

Sales Comparison Approach: The process of deriving a value indication for the subject property by comparing sales of similar properties to the property being appraised, identifying appropriate units of comparison, and making adjustments to the sale prices (or unit prices, as appropriate) of the comparable properties based on relevant, market-derived elements of comparison. The sales comparison approach may be used to value improved properties, vacant land, or land being considered as though vacant when an adequate supply of comparable sales is available.

Scope of Work: The type and extent of research and analyses in an appraisal or appraisal review assignment.

Neighborhood Data

Area Description & Boundaries

The subject property is located in Richland County within the City of Columbia. This area has adequate access to Interstates 20, 26 and 77. The most predominant features in the immediate neighborhood is the downtown Columbia Central Business District, Prisma Health Richland Hospital and the new Segra Minor League Baseball Stadium. Most recent new development in this area is that of offices, retail and urban housing. The Bull Street Development, located across Harden Street from the subject, is planned to take advantage of infill growth. The main 165 acre SCDMH campus is currently under development by Bull Street Development, LLC. Access to shopping, schools and employment centers is good.

Change in Land Use Likely	<input type="checkbox"/>
Not Likely	<input checked="" type="checkbox"/>
Taking Place	<input type="checkbox"/>

The predominant uses in the area are a wide diversity commercial, service and urban living residential developments.

Utilities

Utilities in the subject neighborhood consist of water and sewer provided by the City of Columbia; electricity provided by Dominion Energy; natural gas, when available, is provided by Dominion Energy; telephone and cable services provided by a number of independent carriers. All available public utilities appear to be in adequate supply for development in the area.

Government

Governmental considerations generally include zoning and building codes, real estate tax burdens, special assessments for fire and police protection, schools, and other governmental services. The properties located within the neighborhood are within the City of Columbia and are subject to the City of Columbia Zoning Ordinance. Building improvements are under the jurisdiction of the City of Columbia.

The County of Richland is the taxing authority for real estate within the subject neighborhood. Assessments and millage rates are comparable to other similar neighborhoods. It is expected that millage rates will continue to increase based on historical figures with no additional special assessments anticipated. The millage rates should not create an adverse effect on the market value of properties in the neighborhood due to real estate tax burden.

Social Considerations

The Columbia MSA has a well-educated population base which has seen a steady increase in population. In addition, the available education within the area provides the area with a well-educated workforce. The majority of land uses in the immediate area are for office uses that rely on this well-educated population base for the workforce. The stability of the neighborhood indicates a positive social environment which should allow the neighborhood to remain in a stable period.

As outlined, the neighborhood is characterized by variety of uses. The service properties in the immediate neighborhood are primarily oriented to the surrounding residential uses. The neighborhood has some a nominal amount of vacant land available which is predominantly located within the Bull Street complex. If demand for land is great enough, older improved properties will eventually be demolished for redevelopment at a more intense use.

The neighborhood in which the subject is located has interstate and local downtown access. The neighborhood is considered urban and is within close proximity to the downtown Columbia business district, the Bull Street development complex and the Prisma Health Richland Hospital.

The area within a 1, 3, and 5-mile radii of the subject property is growing at a moderate pace. As outline in the neighborhood section the primary uses include residential, retail, multifamily, office industrial and service uses. The commercial properties are primarily oriented to the intersections and major traffic corridors within the immediate neighborhood, and the uses on this portion of Harden Street are office/service uses.

Columbia Office Market

According to the *Colliers Keenan 2nd Quarter 2020, Office Research & Forecast Report*, summary the Columbia CBD area for Class B space has a total vacancy rate of 12.57% and an average asking lease rate of \$21.27/SF. The Suburban Submarkets for Class B space has a total vacancy rate of 8.01% and an average asking lease rate of \$16.87/SF. According this report, the total Columbia Market has a vacancy rate of 9.24% and an average asking lease rate of \$18.21/SF. Due to high vacancy, it is a renter's market. Rental rates are favorable and many owners are offering tenant improvements and rent concessions

Research & Forecast Report

COLUMBIA, SC | OFFICE
Q2 2020

What will be the impact to the Columbia office market from COVID-19?

Crystal Baker | Research Coordinator | South Carolina

Key Takeaways

- Despite negative absorption during the COVID-19 quarantine period, Columbia office vacancy rate still remains low at 9.24%. When pandemic restrictions are relaxed or lifted, market activity is expected to return over the next 12 months.
- Less populated tertiary markets, like Columbia, may see less post-Coronavirus changes than major and secondary markets.

Columbia changes are minimal

The COVID-19 pandemic has altered the operations of almost every type of business throughout the world. Major and secondary markets are likely to change the most, while tertiary markets, such as Columbia, may survive with limited overall changes. For several months quarantine restrictions forced businesses to shut down, switch to a remote-working environment or minimize operations using essential employees only. Now that restrictions are being relaxed or lifted, the degree to which various markets are affected based on size and population density is becoming apparent.

During a regular weekly commute, employees within major and secondary markets rely heavily on mass transit creating millions of daily interactions. It was, and still is, necessary to remove this aspect for employees due to the Coronavirus, and switch to a remote work environment to eliminate the high-level of social interaction. Businesses unable to accommodate employees working remotely are now either looking to expand their footprint, or working at half-capacity by either alternating work days or using rotating shifts in order to abide by social distancing standards within densely-populated offices.

Conversely, changes within smaller markets may be unremarkable because the population is less dense. The majority of Columbia employees are not reliant on mass transit for their daily commute—they drive alone to and from work. In addition, some companies are choosing to continue working in a remote environment for the time being. However, most will be transitioning back to an office

Change from Q2 2019	+4.07%	+5.05%	+2.87%

*Asking rents are averaged weighted rental rates of the remaining available office space

In the midst of the COVID-19 outbreak, information and data is emerging at a quick and uneven rate. The information contained herein has been obtained from sources deemed reliable at the time the report was written. While every reasonable effort has been made to ensure its accuracy, we cannot guarantee it. No responsibility is assumed for any inaccuracies. Readers are encouraged to consult their professional advisors prior to relying on any of the material included in this report.

setting with social distancing safety precautions and rules in place to limit visitors and interaction. Columbia tenants interested in footprint expansion due to COVID-19 are lacking options attributable to low vacancy rates and the absence of new office construction. Therefore, many tenants have, or will likely, renew leases at their current location. Other than new rules and social distancing, Columbia office tenants are likely to return to business-as-usual in the next few quarters seeing few other changes caused by COVID-19. Some, however, may choose to seek alternative properties where the tenant controls the environment. A surge in leasing and purchasing direct entry spaces and free-standing buildings is expected.

Market Overview

Overall Columbia Market

The Columbia office market is comprised of approximately 16.4 million square feet. The Columbia office market posted a negative absorption of 16,248 square feet due to negative Class B office activity. Together Class A and Class C office space absorbed 37,439 square feet. As a result of the overall negative absorption, the overall market vacancy rate rose from 9.14% last quarter to 9.24% during the second quarter of this year. Conversely, Class A market vacancy dropped from 9.46% during the first quarter of 2020 to 8.69% this quarter. The overall market weighted full service rental rates averaged \$18.21 per square foot.

Columbia Central Business District (CBD)

The Columbia central business district consists of 5.56 million square feet. New construction activity is virtually nonexistent. During the second quarter of 2020 downtown offices posted a negative absorption of 7,160 square feet. Class A office space absorbed 11,661 square feet, while Class B and C posted negative absorption. Due to the negative absorption, the central business district vacancy rate increased from 8.55% last quarter to 8.68% during the second quarter of 2020. The overall average full service weighted rental rate in downtown offices rose from \$20.36 per square foot during the first quarter of 2020 to \$21.73 per square foot this quarter.

Suburban

The Columbia suburban markets consist of 10.83 million square feet of office properties. During the second quarter of 2020, the Columbia suburban markets posted a negative absorption of 9,088 square feet; however, Class A office space absorbed 21,382 square feet and Class C offices absorbed 10,698 square feet. Second quarter negative absorption pushed the suburban vacancy rate up slightly from 9.44% last quarter to 9.53% during the second quarter of this year. The overall suburban office full service weighted rental rates averaged \$16.60 per square foot this quarter. The rental rate averages ranged from \$20.50 per square foot in Northeast Class B suburban offices to \$11.00 per square foot in Lexington Class B space.

Significant Transactions

According to Costar, during the second quarter of 2020 there were approximately 13 office sale transactions within the Columbia market. There were 29 executed office leases or renewals during this quarter.

Sales

- ▶ Park West Realty purchased the 49,450-square-foot office building located at 151 Westpark Boulevard within the St. Andrews submarket for \$3.13 million.
- ▶ Notan Holdings, LLC purchased a 20,822-square-foot, two-property medical office portfolio for \$148 million.

Market Forecast

While smaller markets like Columbia may see modest changes in a post Coronavirus environment, there will surely be an increase in rental rates. In order for building owners to balance the cost of increased safety precautions and additional janitorial services, office operating expenses will increase pushing rental rates upward in the next few quarters. Minimal market changes and rising rental rates within the Columbia market may present an opportunity for new Columbia construction within the coming years. Also, increased interest from major and secondary market tenants looking to relocate to less dense cities will make Columbia an attractive option in the future.

Conclusion

The City of Columbia has a well-educated population base which has seen a steady increase in population. In addition, the available education within the area provides the area with a well-educated workforce. The majority of land uses in the immediate area are for commercial and service oriented uses. A number of properties in this area are being redeveloped to support the new Minor League Baseball Stadium.

Description of Site

Location/Description

The subject property is a corner site located along the northeast side of Harden Street, the southeast side of Colonial Drive and the south side of Slighs Avenue. Full access to the site is available from Harden Street, Colonial Drive and Slighs Avenue.

Source: Richland County GIS (for demonstration purposes only, not to scale)

Size and Shape

The subject property, comprised of one (1) parcel, containing a total of approximately 2.24 acres (97,723 SF) of land, irregular in shape. A copy of the GIS Map is shown above to provide a better understanding of the size, shape, and location of the property. A Plat of the subject property is in the **Subject Photographs and Exhibits** section of this report.

Road Frontage/Access

The site has road frontage and access along Harden Street, Colonial Drive and Slighs Avenue.

PUBLIC VERSION**20-051 3000 Harden Street****Description of Site****Topography, Drainage and Soils**

The topography of the site is mostly level and at grade with Harden Street. The drainage appears to be adequate. The soils on the site are suitable for development as indicated by the current improvements which have been developed on the subject and adjacent properties.

Easements/Encroachments

Typical utility easements are located on the subject property as noted from the inspection. The typical easements do not have a negative impact on the use or desirability of the property.

Zoning

The subject property is zoned C-1, Office and Institutional, by the City of Columbia Zoning Department. This district "is intended to accommodate office, institutional, and certain types of residential uses in areas whose characteristic is neither general commercial nor exclusively residential in nature. Certain related structures and uses required to serve the needs of the areas are permitted outright or are permissible as special exceptions subject to restrictions and requirements intended to best fulfill the intent of this article" The current improvement utilized as an office is a legally conforming use. The setbacks and building height requirements within the district are as follows:

Minimum Yard Requirements (feet)			
Front	Rear	Side	Maximum Building Height
25'	10'	5'	50'

Deed Restrictions

No recorded deed restrictions on the use of the property were located.

Tax Assessment Data

The tax data for the subject properties was obtained from the tax records of Richland County with the property identified on Tax Map #R11502-02-01. The chart below shows the size (acres) per county assessor. The 2019 fair market value of the property is \$683,000. The property is exempt from taxes as it is owned by South Carolina Electric & Gas Company n/k/a Dominion Energy. The millage rate and taxes for 2020 have not yet been assessed. If sold into private ownership, this property will be reassessed and taxed by Richland County.

2019 Tax Summary									
Tax Map ID	Location	Based on Acreage	Assessor's Market Value				Total	2019 Taxes	Paid
			Land	Building	Agricultural	Other			
R11502-02-01	S/S Slighs Avenue	2.24	\$683,000	\$0	\$0	\$0	\$683,000	Exempt	Exempt

Source: Richland County Assessor / Richland County Treasurer

The current tax law for the assessment of real estate has a provision that permits the tax assessor to adjust the market value for tax purposes to the assessable transfer of interest (contract sales price). For counties with assessed values considerably less than actual market values, this will result in higher real estate taxes. The subject property, as a whole, has a current market value of \$683,000 (aggregate). State property tax legislation (Act 388) passed in 2007 allows for reassessment increase to be capped at 15%

PUBLIC VERSION**20-051 3000 Harden Street****Description of Site**

over a five-year period. Additionally, when a property is sold in a transaction that is considered an assessable transfer of interest (ATI), the property is subject to an immediate reassessment to the amount of the sales price. Legislation approved in 2011 is applicable to all primary residential properties which are assessed at a six percent (6%) rate and include commercial properties, investment properties and second homes but excludes manufacturing properties assessed at 10.5%. Properties will receive a 25% exemption from the sales value for taxation purposes. The exemption cannot decrease a property's assessed tax value beyond what is already established on the county tax rolls. All properties will continue to be subject to each county's reassessment program and will be subject to the 1% cap on tax increases for each five-year reassessment period.

The following calculation estimates the taxes for the property based upon the current assessment ratio and millage rate from the Richland Count Tax Assessor's office:

Flood Insurance Rate Map (FIRM)

According to a review of the Richland County FIRM Map 45079C0244L, dated December 21, 2017, the property is located within Zone X which is not in a flood hazard area.

Potential Environmental Hazards

An environmental site assessment has not been performed on the subject property. We are not experts in environmental conditions; however, we recommend that any potential purchaser of the site have an environmental site assessment performed. If an environmental site assessment is performed and negative environmental conditions are present, a re-appraisal may be required.

Wetlands

A wetlands delineation has not been provided. The available survey makes no reference to wetlands. We have assumed the property has no significant jurisdictional wetlands which would have a negative impact on the site.

Utilities

Utilities available to the subject property consist of water and sewer provided by the City of Columbia; electricity provided by Dominion Energy, natural gas, if available, is provided by Dominion Energy, telephone and cable service provided by a number of independent carriers. Available public utilities appear to be in adequate supply at reasonable rates.

Description of Improvements

Overview

The present improvements consist of a 1-story office building containing 5,546 square feet. The improvements were constructed in 2005. The overall physical condition is good with the subject's actual age being approximately 15 years with an effective age estimated at approximately 5 years. The total economic life of the improvements is approximately 60 years with the remaining economic/useful life being approximately 55 years. The overall physical condition is good. The subject land to building ratio of 17.62 to 1 which exceeds what is typical for this type improvement. This additional land area is considered surplus land, not necessary to support the subject's highest and best use, that would allow for expansion of the existing improvements up to approximately 2,875 square feet based upon the existing 14 employee parking spaces. Based on this information, the expansion would require approximately 9,500 square feet of surplus land. It is most likely the expansion would take place in the existing drive thru area.

Dimensions

The dimensions of the 1-story office building are irregular containing 5,546 square feet. A copy of each Sketch is contained in the **Subject Photographs and Exhibits** section of the report to provide the reader a better understanding of the size and shape of the building.

Primary Office

This building is designed and used as an office and payment center with drive thru. The building is constructed on a concrete slab foundation a brick veneer exterior. The floor plan is made up of an entry foyer; reception area; six (6) private offices; teller area; counting room; breakroom; copy/mail room; conference room; three (3) restrooms; and closet rooms for janitorial; electrical and storage. The floor coverings are carpet; hard tile; and vinyl tile. The finish is average. Interior walls are drywall. The ceilings are acoustical tile with flush mount fluorescent lighting fixtures. This area is centrally heated and cooled.

Drive-Thru Facility Area

The drive thru area is four (4) lanes, teller operated and utilized for utility payments. Associated with the drive thru area is the teller area and counting room.

HVAC

We are not experts in HVAC systems but it appears the HVAC systems were working at the time of our inspection.

Electrical

The electrical system is typical of this type improvement and appears adequate for the current requirements of all building. There did not appear to be any visible deficiencies in the electrical system upon inspection. However, we are not experts on electrical systems. It should also be noted that, typical of offices utilized for payment centers, a generator back-up system is located at the rear of the building to maintain power to the computers in the event of a power outage.

Parking

Adequate parking for the subject improvement is available. Parking on the site is predominantly marked, paved asphalt. Ingress and egress to the parking locate is by way of Harden Street, Colonial Drive and Slighs Avenue. Public parking is made up of 27 marked spaces and employee parking is located behind a security gate and contains 14 marked spaces. The subject's public parking meets the zoning requirements for medical office space of 5 per 1,000 square feet or 27 spaces. The subject land to building ratio of 17.62 to 1 which exceeds what is typical for this type improvement. This additional land area is considered surplus land, not necessary to support the subject's highest and best use, that would allow for expansion of the existing building. This surplus land could allow for expansion of the existing improvements up to approximately 2,875 square feet based upon the existing 14 employee parking spaces.

Landscaping

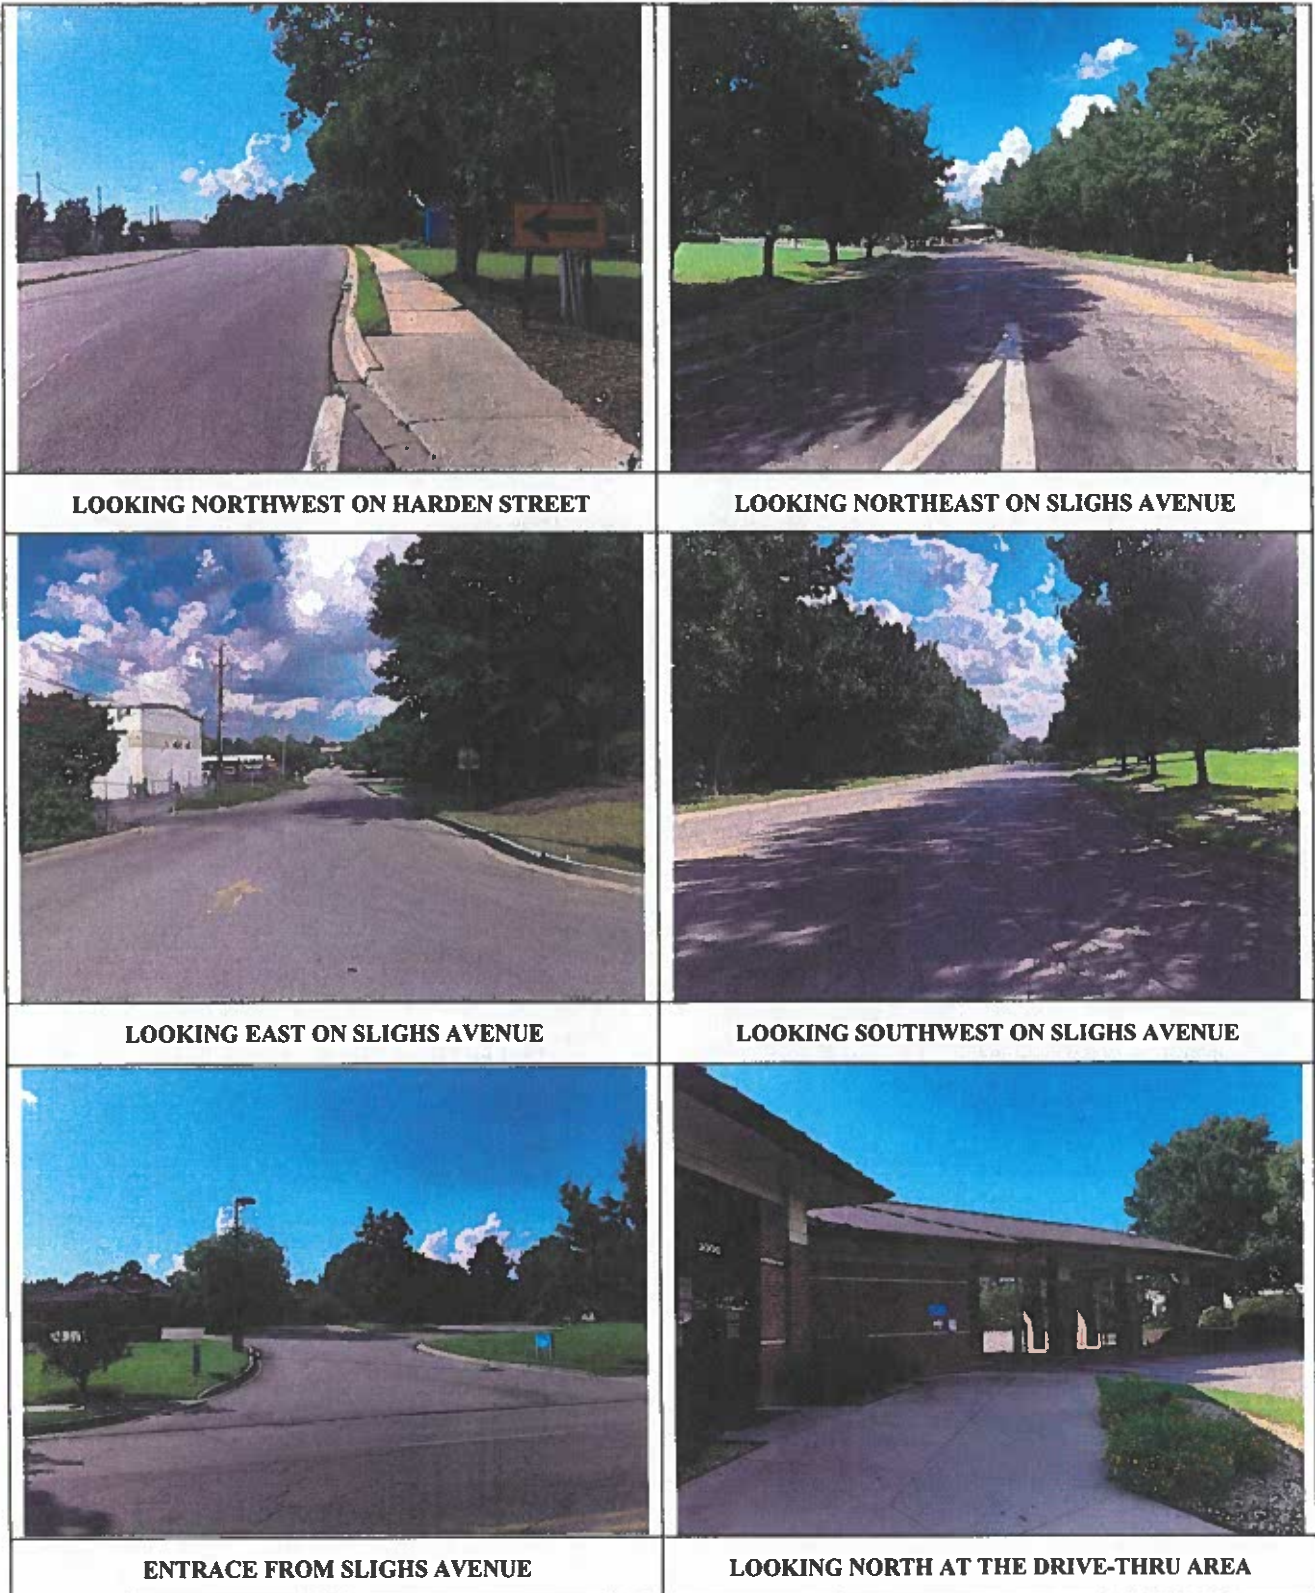

The subject property has typical landscaping for an office building.

Conclusion

The subject building was designed, constructed and is functional as a 1-story office building. The overall physical condition of the interior is good with the exterior condition being good. The improvements were constructed in 2005. The overall physical condition is good with the subject's actual age being approximately 15 years with an effective age estimated at approximately 5 years. The total economic life of the improvements is approximately 60 years with the remaining economic/useful life being approximately 55 years. As discussed above the surplus land would allow for expansion of the existing improvement utilizing the employee parking that is made up 14 spaces and this expansion most likely taking place in the area of the existing drive thru lanes.

SOUTH CAROLINA ELECTRIC & GAS COMPANY ("Grantee")

in the State aforesaid, the receipt whereof is hereby acknowledged, have granted, bargained, sold and released and by these Presents do grant, bargain, sell and release unto Grantee, Its Successors and Assigns, the following described property to wit:

All that certain piece, parcel or lot of land with the improvements thereon, situate, lying and being in the City of Columbia, County of Richland, State of South Carolina, the same being shown as 2.24 Acres as shown on Boundary and Topographic Survey prepared for The Keenan Company by DS Atlantic dated July 6, 1999, and having such boundaries and measurements as shown thereon, said survey being recorded in Record Book 403 at Page 2996.

This being the identical property conveyed to Pulmonary Partnership by deed from The Regents of the Lunatic Asylum of South Carolina now known as South Carolina Department of Mental Health dated April 25, 2002, and recorded in the Office of Register of Deeds for Richland County in Record Book 403 at Page 2988.

The above property is conveyed subject to the following covenant and condition, specifically that the property will not be used for medical related activities for two (2) years from the date of this deed.

GRANTEE'S ADDRESS: Land Department 156

Columbia, South Carolina 29218

TMS NO. 11502-02-01

THIS Deed was prepared in the Law Offices of Barnes, Alford, Stork and Johnson, 1613 Main Street, Columbia, South Carolina 29201

AFFIDAVIT

Page 1 of 2

PERSONALLY appeared before me the undersigned, who being duly sworn, deposes and says:

1. I have read the information on this affidavit and I understand such information.
2. The property being transferred is located at Colonial Drive and Harden Street in the City of Columbia, bearing Richland County Tax Map Number 11502-02-01, and was transferred by Pulmonary Partnership to South Carolina Electric & Gas Company by Deed dated June 23, 2003.
3. Check one of the following: The deed is

- (a) ☒ subject to the deed recording fee as a transfer for consideration paid or to be paid in money or money's worth.
- (b) ☐ subject to the deed recording fee as a transfer between a corporation, a partnership, or other entity and a stockholder, partner, or owner of the entity, or is a transfer to a trust or as a distribution to a trust beneficiary.
- (c) ☐ exempt from the deed recording fee because (See Information section of affidavit):

(If exempt, please skip items 4 - 7, and go to item 8 of this affidavit.)

4. Check one of the following if either item 3(a) or item 3(b) above has been checked (See Information section of this affidavit.):

- (a) ☒ The fee is computed on the consideration paid or to be paid in money or money's worth in the amount of \$775,000.00.
- (b) ☐ The fee is computed on the fair market value of the realty which is _____.
- (c) ☐ The fee is computed on the fair market value of the realty as established for property tax purposes which is _____.

5. Check Yes ☐ or No ☒ to the following: A lien or encumbrance existed on the land, tenement, or realty before the transfer and remained on the land, tenement, or realty after the transfer. If "Yes," the amount of the outstanding balance of this lien or encumbrance is: _____.

6. The deed recording fee is computed as follows:

- (a) Place the amount listed in item 4 above here: \$ 775,000.00
- (b) Place the amount listed in item 5 above here: 0
(If no amount is listed, place zero here.)
- (c) Subtract Line 6(b) from Line 6(a) and place result here: \$ 775,000.00

7. The deed recording fee due is based on the amount listed on Line 6(c) above and the deed recording fee due is: \$ 2,867.50.

8. As required by Code Section 12-24-70, I state that I am a responsible person who was

Instrument Number: 2003065572 Book/Page: R 811/422 Date Time: 06/24/2003 11:30:06 753

connected with the transaction as: Attorney for Grantee.

9. I understand that a person required to furnish this affidavit who wilfully furnishes a false or fraudulent affidavit is guilty of a misdemeanor and, upon conviction, must be fined not more than one thousand dollars or imprisoned not more than one year, or both.

Daniel B. Lott Jr.
Responsible Person Connected with the Transaction

INFORMATION

Except as provided in this paragraph, the term "value" means "the consideration paid or to be paid in money or money's worth for the realty." Consideration paid or to be paid in money's worth includes, but is not limited to, other realty, personal property, stocks, bonds, partnership interest and other intangible property, the forgiveness or cancellation of a debt, the assumption of a debt, and the surrendering of any right. The fair market value of the consideration must be used in calculating the consideration paid in money's worth. Taxpayers may elect to use the fair market value of the realty being transferred in determining fair market value of the consideration. In the case of realty transferred between a corporation, a partnership, or other entity and a stockholder, partner, or owner of the entity, and in the case of realty transferred to a trust as a distribution to a trust beneficiary, "value" means the realty's fair market value. A deduction from value is allowed for the amount of any lien or encumbrance existing on the land, tenement, or realty before the transfer and remaining on the land, tenement or realty after the transfer. Taxpayers may elect to use the fair market value for property tax purposes in determining fair market value under the provisions of the law.

Exempted from the fee are deeds:

- (1) transferring realty in which the value of the realty, as defined in Code Section 12-24-30, is equal to or less than one hundred dollars;
- (2) transferring realty to the federal government or to a state, its agencies and departments, and its political subdivisions, including school districts;
- (3) that are otherwise exempted under the laws and Constitution of this State or of the United States;
- (4) transferring realty in which no gain or loss is recognized by reason of Section 1041 of the Internal Revenue Code as defined in Section 12-6-40(A);
- (5) transferring realty in order to partition realty as long as no consideration is paid for the transfer other than the interests in the realty that are being exchanged in order to partition the realty;
- (6) transferring an individual grave space at a cemetery owned by a cemetery company licensed under Chapter 55 of Title 39;
- (7) that constitute a contract for the sale of timber to be cut;
- (8) transferring realty to a corporation, a partnership, or a trust in order to become, or as, a stockholder, partner, or trust beneficiary of the entity provided no consideration is paid for the transfer other than stock in the corporation, interest in the partnership, beneficiary interest in the trust, or the increase in value in such stock or interest held by the grantor. However, the transfer of realty from a corporation, a partnership, or a trust to a stockholder, partner, or trust beneficiary of the entity is subject to the fee even if the realty is transferred to another corporation, a partnership, or trust;
- (9) transferring realty from a family partnership to a partner or from a family trust to a beneficiary, provided no consideration is paid for the transfer other than a reduction in the grantee's interest in the partnership or trust. A "family partnership" is a partnership whose partners are all members of the same family. A "family trust" is a trust, in which the beneficiaries are all members of the same family. The beneficiaries of a family trust may also include charitable entities. "Family" means the grantor and the grantor's spouse, parents, grandparents, sisters, brothers, children, stepchildren, grandchildren, and the spouses and lineal descendants of any the above. A "charitable entity" means an entity which may receive deductible contributions under Section 170 of the Internal Revenue Code as defined in Section 12-6-40(A);
- (10) transferring realty in a statutory merger or consolidation from a constituent corporation to the continuing or new corporation;
- (11) transferring realty in a merger or consolidation from a constituent partnership to the continuing or new partnership; and,
- (12) that constitute a corrective deed or a quitclaim deed used to confirm title already vested in the grantee, provided that no consideration of any kind is paid or is to be paid under the corrective or quitclaim deed.

Instrument Number: 2003065572 Book/Page: R 811/423 Date Time: 06/24/2003 11:30:06.753

- (13) transferring realty subject to a mortgage to the mortgagee whether by a deed in lieu of foreclosure executed by the mortgagor or deed executed pursuant to foreclosure proceedings.
- (14) transferring realty from an agent to the agent's principal in which the realty was purchased with funds of the principal, provided that a notarized document is also filed with the deed that establishes the fact that the agent and principal relationship existed at the time of the original purchase as well as for the purpose of purchasing the realty.
- (15) transferring title to facilities for transmitting electricity that is transferred, sold, or exchanged by electrical utilities, municipalities, electric cooperatives, or political subdivisions to a limited liability company which is subject to regulation under the Federal Power Act (16 U.S.C. Section 791(a)) and which is formed to operate or to take functional control of electric transmission assets as defined in the Federal Power Act.
